Education

KIIT Deemed to be University

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

CGPA: 8.49/10

Himalayan Pyramid Secondary School

Class XII (NEB)

2021

87.5%

Shree Benga Sah Secondary School

Class X (NEB)

2019

68.75%

Technical Skills

Languages: Python, Java, JavaScript, SQL, C, HTML, CSS

Frameworks & Libraries: Spring Boot, Angular, Flask, Scikit-learn, NLTK, Pandas, NumPy

Cloud & DevOps: Amazon Web Services (AWS), Azure Data Factory, EC2, S3

Tools: Git, Postman, Tableau, Power BI, Excel

Domains: Data Science, Machine Learning, AIML, Software Testing, Data Visualization

Projects

Twitter Sentiment Analysis | Python, NLP, NLTK, Scikit-learn, Pandas

May 2025 – Jul 2025

- Built a sentiment analysis model to classify tweets using Python, NLP, NLTK, Scikit-learn, and Pandas.
- Implemented preprocessing techniques including tokenization, stemming, and lemmatization for data cleaning.
- Applied TF-IDF feature extraction and classification algorithms to improve accuracy in social media trend analysis.

Heart Disease Prediction | Python, Flask, Scikit-learn, Pandas, MySQL

Dec 2024 – Mar 2025

- Designed and implemented a machine learning web application to predict heart disease risk using user health inputs such as age, blood pressure, and cholesterol levels.
- Built backend with Python and Flask, integrated Scikit-learn models and MySQL for data persistence; tested APIs using Postman.
- Enhanced early detection and preventive healthcare by providing accurate risk assessment through the ML pipeline.

WingX – Food Delivery Application | React.js, Node.js, Express.js, MongoDB, Socket.io, Razorpay

Mar 2025 – Mar 2026

- Developed a full-stack MERN food delivery platform supporting three user roles (User, Restaurant Owner, Delivery Boy) with JWT-based authentication and role-based access control.
- Integrated Razorpay payment gateway for secure transactions and Socket.io for real-time order status updates and delivery assignment notifications.
- Implemented LogMeal nutrition scanner API for dietary insights and a diet plan module; built broadcast notification system for delivery management.

Certifications

ExcelR Edtech Pvt. Ltd.: Data Engineering

ExcelR Edtech Pvt. Ltd.: Full Stack Development – Java Spring Boot & Angular

Eduskills Academy: Python Full Stack Developer Virtual Internship

Amazon Web Services: AWS Academy Graduate – AWS Academy Cloud Architecting

Palo Alto Networks: Certified Cybersecurity Practitioner

Conferences & Workshops

Code Optimization & Performance

Organized by: Department of Computer Science, KIIT University | Date: Aug 2025

Soft Skills

Languages Known: Hindi, English

Teamwork & Collaboration: Experience leading and contributing to multi-member development teams.

Problem-Solving: Strong analytical and debugging skills across full-stack and ML projects.

Adaptability: Comfortable working across multiple tech domains simultaneously.
